Gentlemen:-

After several months of very careful thought and consideration in connection with the general furnishings and equipment of our new \$4,000,000 Residential Hotel, our directors decided on awarding this contract, aggregating nearly \$500,000 to Albert Pick & Company.

Several other prominent hotel furnishing concerns were competing for our contract, and we were influenced in placing this order with you because we felt that your long experience, and extensive volume of business in this line, places you in a position to quote to us a more reasonable price for high class equipment, while your contract department with its high class designers, buyers, and decorators, also assure us efficient and valuable service.

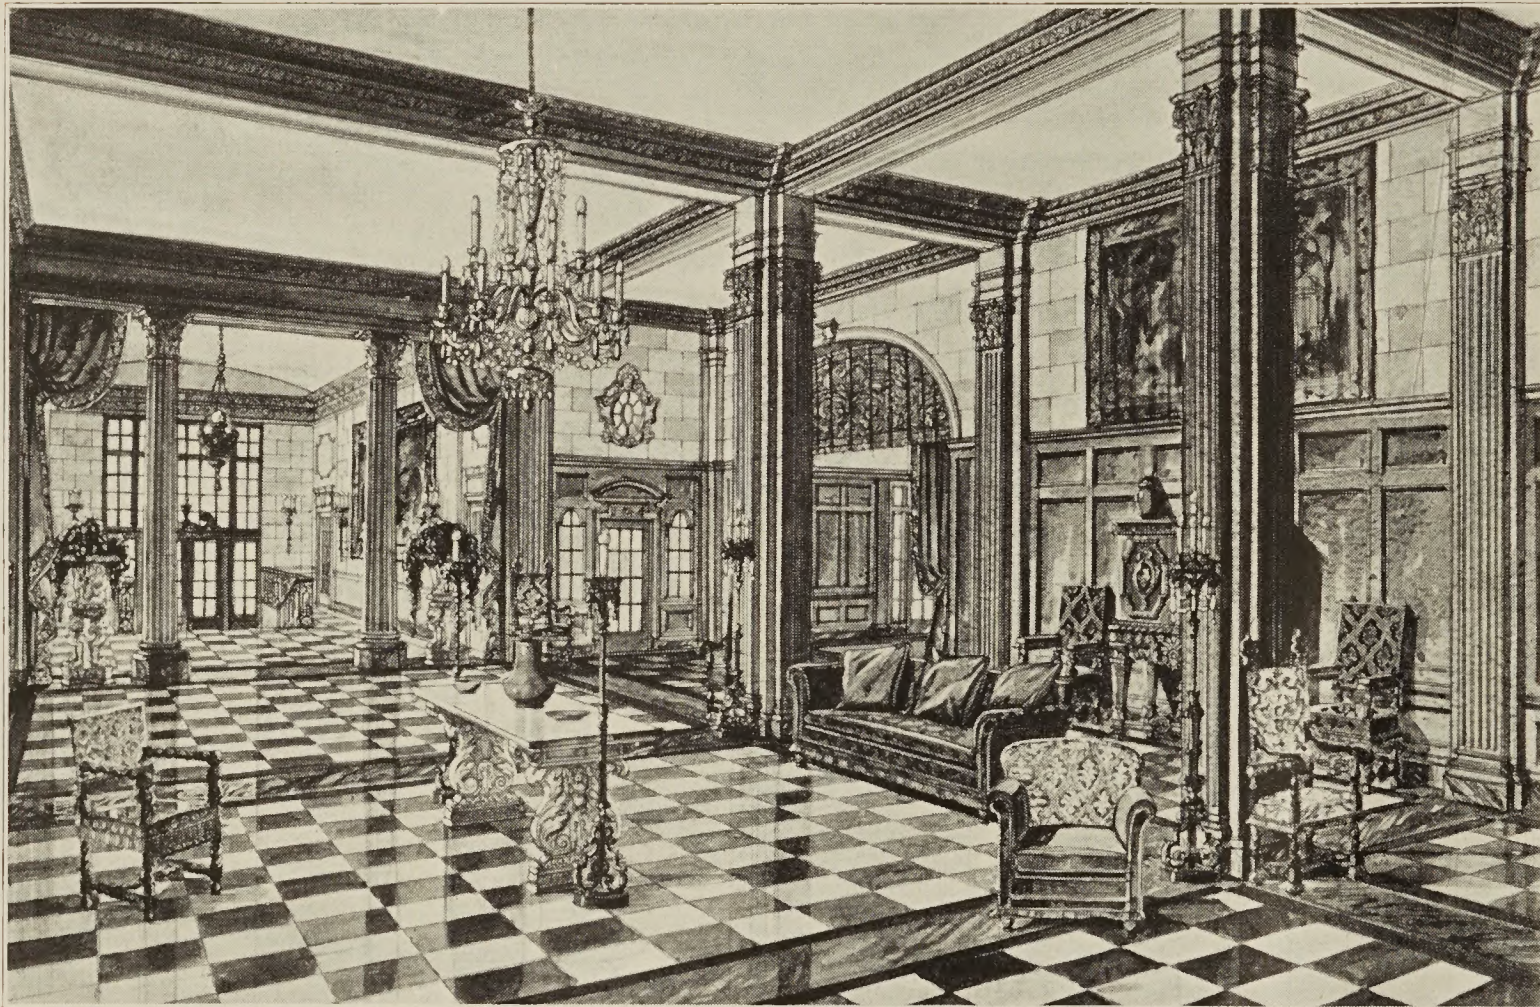

Assuring you of our appreciation of your interest in our enterprise, we remain,

Very truly yours,
THE WADE PARK MANOR COMPANY

OFFICE OF PRESIDENT

July 19, 1922.

Messrs. Albert Pick & Company
212 West Randolph Street
Chicago, Illinois

Dear Sirs:-

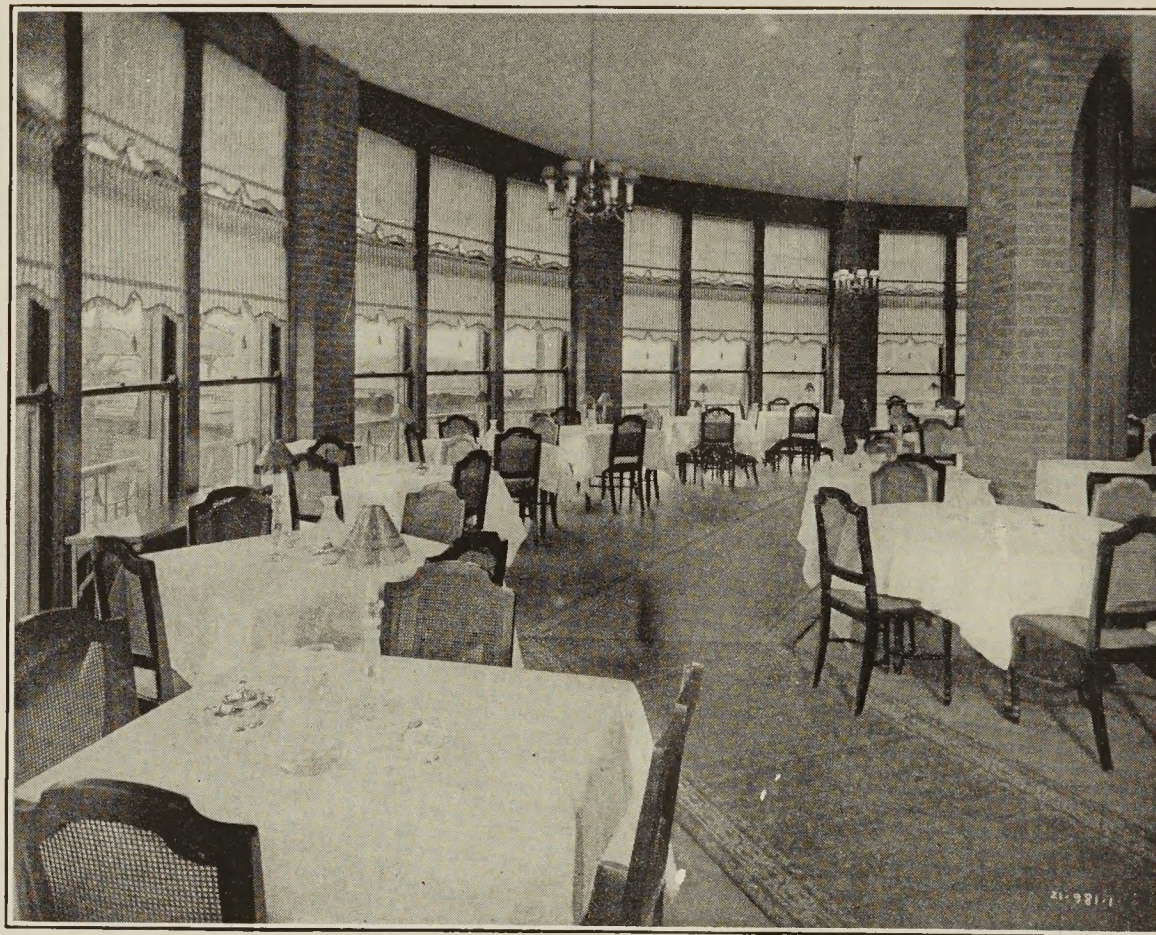

In reply to your letter of July 11th, it gives me pleasure in stating that the equipment in the East Building of the Chicago Beach Hotel completed last year, which was bought from and installed by Albert Pick & Company, included all items which generally represent the equipment of a hotel with the exception of the carpets throughout the building and the electric fixtures of the main floor.

The time at which the orders were placed and the period during which the various items were manufactured, viz. 1919 and 1920, were, I think it is universally agreed, the most difficult years that Chicago has ever experienced, owing to labor unrest, transportation difficulties and shortage of material. In spite of these facts, deliveries were made by you in accordance with the contracts and the quality of the goods supplied may, under the circumstances, be considered definitely as very satisfactory, in which connection it should be realized that the furniture order was a somewhat exceptional one, the specifications being severe, both as regards construction, workmanship and designs, which were those of old English periods.

With regard to the kitchen installation supplied, this has turned out to the entire satisfaction of The Beach Hotel Company.

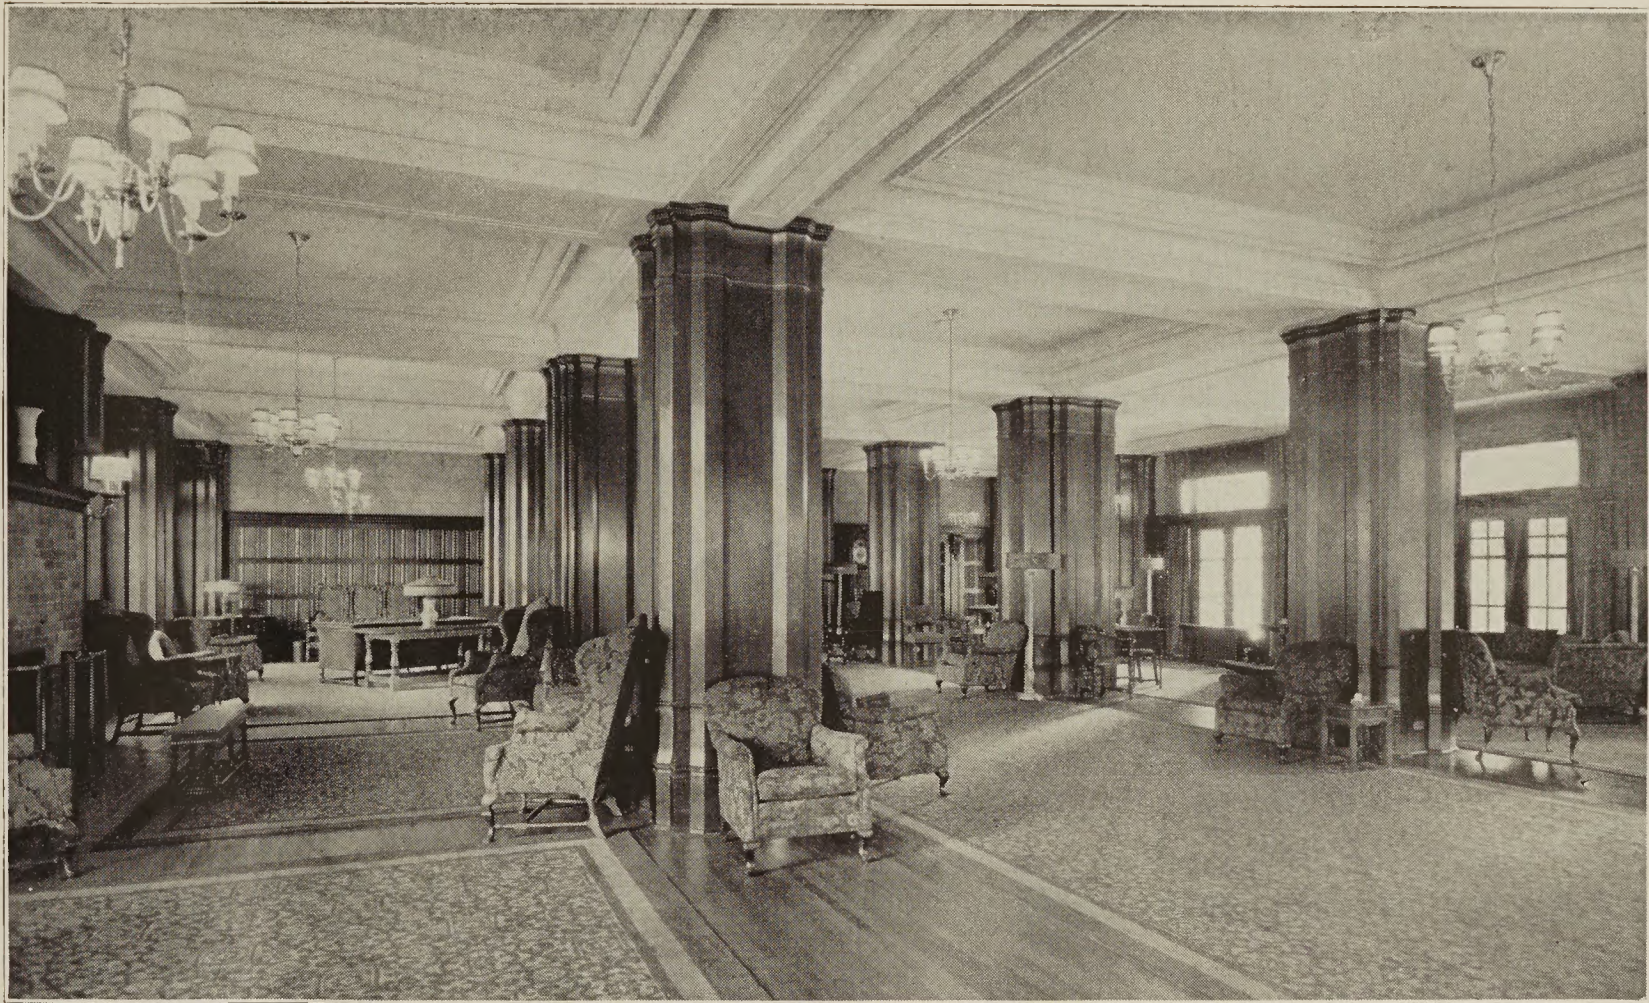

Yours very truly,

John B. Foster
President.

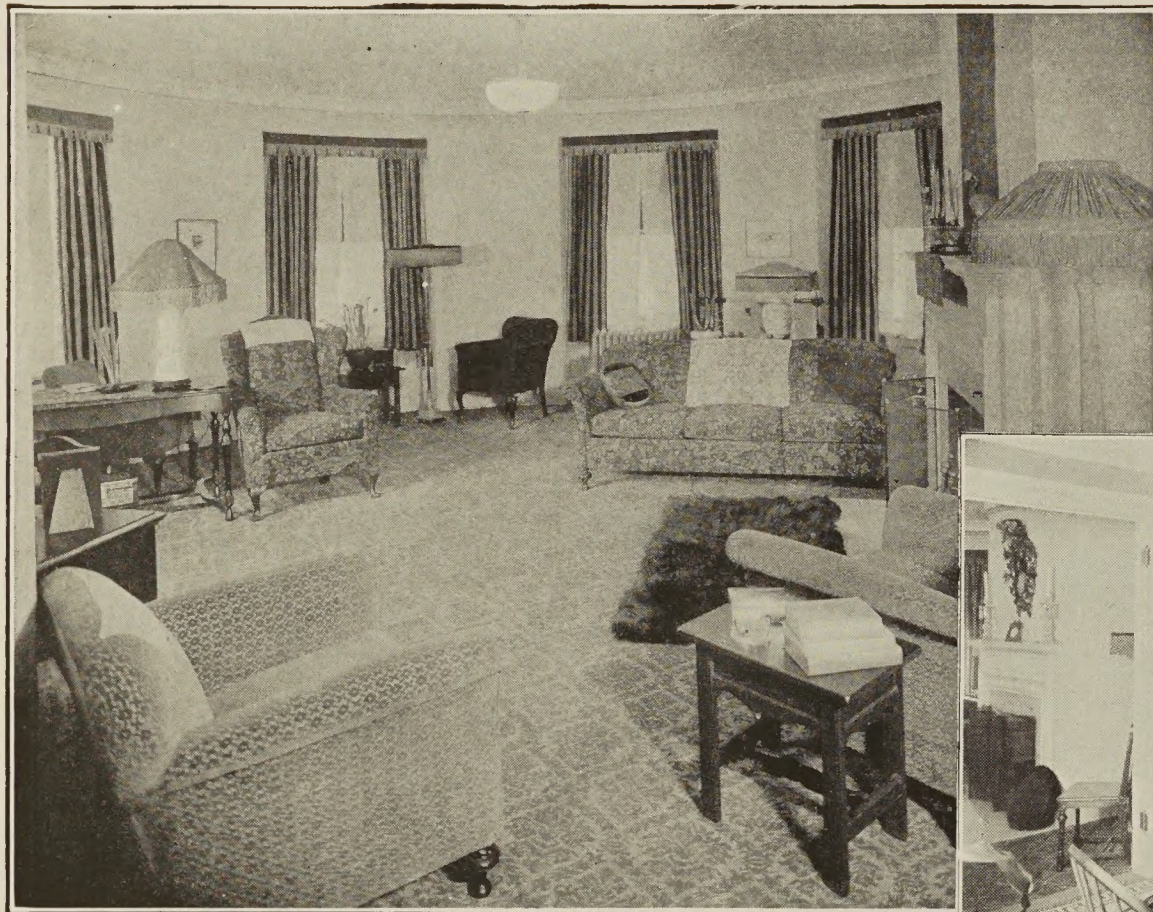

The New Chicago Beach Hotel, Chicago, equipped in its entirety by Albert Pick & Company, marks an achievement in securing for the residential hotel that pleasing quality of "homelike" comfort so necessary for success. The view above shows one section of the beautiful dining room where guests find pleasure in taking their meals.

Albert Pick & Company's
finest furnishings in the 500
rooms of the New Chicago
Beach Hotel.

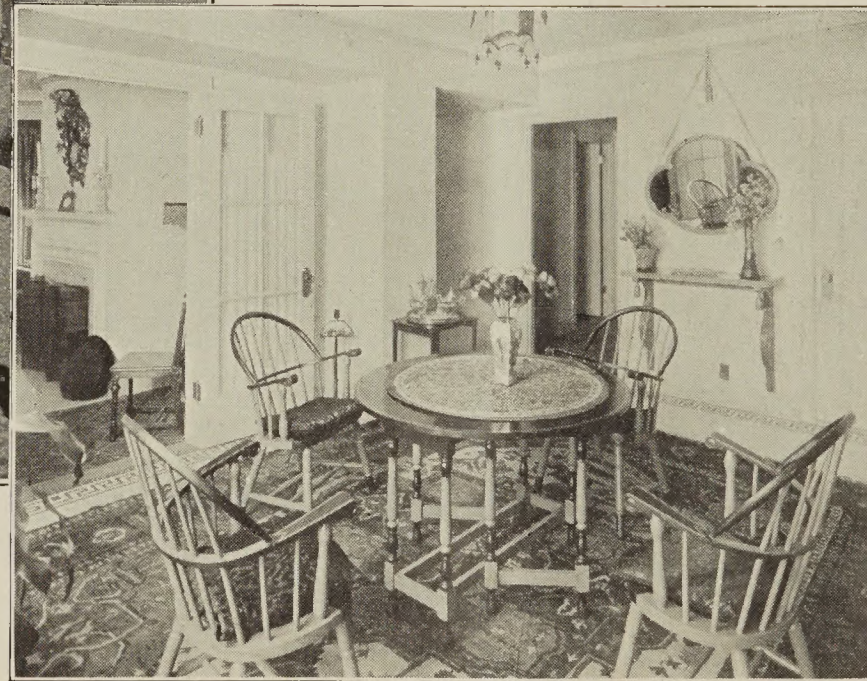

The spacious Lounge of The New Chicago Beach Hotel has a pervasive air of restfulness and charm that is noticeable at once. The furniture is arranged in convenient groups, and color harmonies are blended in the carpets, furniture, drapes and lamps.

The renown of The New Chicago Beach Hotel was earned in part by the commodious living rooms, with their effective drapery designs, beautiful lamps, and the finest of upholstered furniture.

Breakfasts are an added joy in such a breakfast room. Food is served direct from the hotel kitchen.

Furniture of special design and manufacture was selected for the bedrooms of The New Chicago Beach. It is distinctive and pleasing in appearance, yet built with full consideration for hotel requirements.

These entrance halls in many suites emphasize the charm of the furnishings throughout.

Gentlemen:

Furnishing an Apartment Hotel requires a great deal of special information about planning, space-saving etc., as well as a knowledge of what people want.

The men in your institution who worked with us in planning and furnishing the Dorchester Apartments in the most up-to-date manner, certainly knew all about the modern apartment hotel.

Very truly yours,

T. A. Barrett
